PREFACE

This compilation has been made in recognition of the need for a convenient reference list of the authentic Governmental actions under which the individual National Forests were established, their boundaries subsequently modified, or their status altered. It provides a comprehensive, chronologic list of official actions affecting Federal Forest Reserves and National Forests, but not Purchase Units, citing the supporting documents required to trace the legal history of each to October 31, 1973, except that land exchanges or donations affecting the National Forest boundaries are not cited because of the number of actions and the complexity of assembling accurate data concerning them.

This compilation is the fourth updating of the original edition compiled by S. Lo Jacono in 1959.

This chronologic history begins with the Creative Act of March 3, 1891 (26 Stat. 1103; 16 U.S.C. 471). This Act was supplemented by the act of June 4, 1897 (30 Stat. 34, 35; 16 U.S.C. 475), and by the Weeks Act of March 1, 1911 (36 Stat. 961; 16 U.S.C. 517). The source information was the U.S. Statutes and other published official records of Proclamations, Executive Orders, and Acts of the Congress, such as the Federal Register, together with documents and maps depicting original boundaries and subsequent changes on file in the Division of Engineering, Forest Service, U.S. Department of Agriculture, Washington, D.C. 20250.
